

emPower e-Learning Solutions provides online Certified Nursing Assistant Courses

emPower has developed online Certified Nursing Assistant courses to train students to become professional aides of Nurses in patient care .

Louisville, Kentucky (May 2010) - As a Certified Nursing Assistant (CNA) you will play a frontal role is providing high quality care to patients in the hospital and nursing homes. Your expertise and human touch will provide great comfort to people who cannot take care of themselves.

You work as an aide to nurse, orderly, patient care technician or caregiver. The job is to assist sick people in their daily lives done under the supervision of a nurse. Bathing, feeding, and assisting nurses in setting up medical instruments, monitoring and grooming patients fall in the scope of the job.

As a fresher if you are looking to make nursing as you career, CNA is best entry point. There is steady increase in demand for CNAs due to increasing aging population. In coming years CNAs will enjoy a higher salary, especially in hospitals and nursing homes as their demand is going to shoot up. With a good work experience under your belt you can become a professional nurse.

emPower provides CNA distance learning course so that you can prepare yourself for State certification examination. We have Learning Management System (e-portal), which provides online interactive platform for you to complete the course electronically. The online lessons will teach you how to assist patients in their personal tasks like bathing, dressing and eating, lying down, sitting and mobility. You will learn how to control an infection and maintain complete health records of patients. Our online course will train you how to respond to common chronic and acute health conditions. Beside this we train you on the common health care practices and workflows of hospitals, nursing homes and homecare settings.
