

## **Fidelity Janitorial has adopts emPower eLearning Solutions Bloodborne Pathogens Standard Online Course.**

emPower - a leading provider of comprehensive Healthcare Compliance Solutions through Learning management system (LMS) has announced today that Fidelity Janitorial service located in Columbia, South Carolina has adopted the company's Bloodborne Pathogens Standard eLearning Course in order to improve employees' safety. Janitorial services' jobs put them at reasonable risk of coming into contact with blood or other potentially infectious materials. It is necessary to train them properly on how to handle and dispose the infectious materials safely.

Fidelity Janitorial decided to get their employees trained on Bloodborne Pathogens Standard. All the new employees joining the organization have access to this online course and can take that anytime anywhere at their convenience. This training helps employers provide a safe and healthful work environment for their employees and minimize the possibility of employee exposure to bloodborne pathogens.

All the existing and new joining employees of Fidelity Janitorial Company get adequate knowledge about Bloodborne Pathogens that endanger health at work place. The animated and narrated training shows exactly the functions that need to be carried out. Some of topics covered include identifying signs, symptoms and transmission pathways of various diseases precast by viruses and cover primary precautions and control message warning, responses and responsibility. The goal of training is the help provide safe and helpful work environment as well as minimize exposure.

Training employees for Bloodborne pathogens is mandated by OSHA as well.

OSHA conducted 700 inspections throughout Texas. They ended up issuing nearly 1,100 violations resulting in \$1.6 million in fines.
