

iLearn Application - Makes the learning the way you want it to be

emPower is all set to launch its customized iLearn application compatible with iPhone, iPad and iPod touch. The application helps users to learn everything from basic to advanced topics, Healthcare to IT, in an interactive and engaging method.

One of the refreshing changes iLearn application has brought is it has helped to solve a problem of classroom education, student can learn outdoors, for example on field trips, support informal or lifelong learning, such as using handheld dictionaries and other devices for language learning.

Today there are numerous types of authoring technologies to choose from, the task may seem somewhat daunting, but if planned in a proper and systematic way it doesn't have to be. One of the secret to pick the correct authoring tool is having a clear understanding about your own technology restrictions, instructional needs and business requirements.

The iLearn application by emPower contains tools to create your own course in your field of expertise. Content developer can create categories and courses in such manner that it can be managed easily by end users who can download the iLearn App from iTunes which comes with a few preloaded courses. End users can view these preloaded courses or can go to store front and can download free courses or demo courses or pay and purchase paid courses. Once the courses are downloaded are visible in the App on the iPhone/iPad. The tool/GUI will automatically create a course in an attractive graphical format as an output. Various others functionality can be easily deployed using the iLearn application.

emPower iLearn application is simple and effective it provides tools so effortlessly that you can create your training module within minutes. Put videos, images, audio, text and make the learning the way you want it to be.

"Our iLearn application can fundamentally change the way students navigate their educational experience," said Cheta Parikh CEO of emPower eLearning Solutions." We think there's a lot of potential in our iLearn application tailored to suit individual student requirements and more importantly drive greater student engagement. We want to be at the forefront of bringing innovations to institutions and users with an innovative user experience."

About emPower

emPower is a leading provider of comprehensive Healthcare Compliance Solutions through Learning Management System (LMS). Its mission is to provide innovative security solutions to enable compliance with applicable laws and regulations and maximize business performance. emPower provides range of courses to manage compliance required by regulatory bodies such as OSHA, HIPAA, Joint commission and Red Flag Rule etc. Apart from this emPower also offers custom demos and tutorials for your website, business process management and software implementation.
